Enviro-Tote Artwork Specs

For Screen Printed Art: AI, EPS, PDF, SVG

☐ **100% of my design is vector**
How do I know?   When I open my file in Illustrator and hit cmd+y (ctrl+y for windows) all elements of my artwork are outlined in vector paths and none of my artwork disappears

☐ **All my fonts are expanded**
How do I know?   All text objects in my file can no longer be edited. I have selected my text objects and completed the following steps: under "objects" in the menu bar I selected the "expand" option and hit "ok".

☐ **All lines and knock outs in my artwork @ print size are 1.5 pts thick. If printing on 15 oz, 2 pts is the minimum.**

What size is my artwork supposed to be? Each Enviro-Tote bag has recommended imprint sizes for artwork. Find your recommended imprint size on our website, www.enviro-tote.com. If your artwork is larger than the recommended imprint size or has a full bleed for all over print, please contact your sales rep or account manager by calling 1(800)TOTE-BAG for further instructions.

☐ **I know what ink colors I want to print:** 1. Pantone _____   2. Pantone _____   3. Pantone_____

4. Pantone _____   5. Pantone _____   6. Pantone _____   7. Pantone _____

I'm not sure what ink colors I want to choose. Where do I find out? At Enviro-Tote, we use Pantone Solid Coated colors to identify our ink colors. Go to http://www.pantone.com/color-finder to search for the ink color you desire. We use the Plus Series Solid Coated, ending with a C.

For Heat Transfer Art: JPEG, TIFF, Photoshop, PNG

☐ **My image is 300 DPI @ print size**
What size is my artwork supposed to be? Contact a sales representative to discuss the appropriate sizing for your artwork.

Please color match my artwork to

☐ The digital file provided   ☐ A hard copy of the image that I will provide

☐ PMS matches: (please provide specific instructions on what in the artwork is to match PMS#'s)

1. Pantone _____   2. Pantone _____   3. Pantone_____   4. Pantone _____

5. Pantone _____   6. Pantone _____   7. Pantone _____
